# The Newbie Path

( Prepare For a Rude Awakening )

Greetings my friend

Thank you for taking a minute to read this **\*IMPORTANT\*** news report !

Many people will Not be ready to hear the following details, if that's you I apologize right now. However if you are ready to listen then **prepare for a shock! !**

You see I'm about to let something Out .....

Something that may have been forced upon you already, or if your lucky I may just be about to save you from this !

Now listen very carefully .....

There is something happening right now online that is crushing the hopes and dreams of 1000's of people just like you and I

What's going on is so cruel and evil that once I discovered it I knew I had to share it with my close friends.... That includes you !

Let me explain ....

Here's a quick story tale .....

**\*WARNING\***

**This story DOES NOT have a happy ending !**

=====

***Once upon a time there was a person that discovered people were making massive amounts of cash FAST on the internet.***

***They decided that they would give this a go and make themselves some quick easy internet cash. They began searching online about how to make the easy money when they come across \*THE ONE\* !!***

***The best cash pulling system in the world !!***

***So they pay out a chunk of cash for the product only to find a couple of weeks later nothing has changed except they are now down a few 100 bucks***

***BUT it's ok.... because theres a NEW system in town and this really is THE ONE !***

***No really ... It is, I swear ... ( The guru's said so )!!***

***.... Well ?***

***WRONG again, never mind though eh ! Theres another ebook out in a few days and that promises to be life changing - I know that for a fact :)***

=====

And so the path continues until they either quit .... Or find the real answers from someone personally, who is making cash online right now themselves !

So what do you think to the story tale ?

Good ? .... Hmmmm

BAD ? .... Damn right it is my friend !!!

Here's our **problem** ... This is NOT a tale !

Its real life and its been happening for years !!

But what is this path that we travel .... ?

Well my friend, let me reveal this **evil** to you .....

## **x x The Newbie Path x x**

Yes my friend, the **newbie path** is that path of **doom** that is already mapped out for you to travel by the gurus !

Do you know what the path does to us ?

- Drains our bank account Dry ....
- Drip feeds our brain with just tiny bits of the puzzle...

But worst of all ...

- The path rinses our soul to the point of quitting on our internet goals !

Now the all important problem for us .... **How the devil do you get started successfully online and steer clear from the dreaded newbie path ?**

**Well let me share with you exactly how I did it ....**

Firstly you should know that the truth is, I waited until I had absolutely no option but to make it work or my life was going under BIG TIME !! I'm talking massive debts galore .... Credit cards and loans were my major problem, to the tune of around \$33,000 !!

If I could change one thing about that time it would be to have taken action while I had the choice. I don't know why thats the way we tend to do things but I sure wish I had done it without the pressure !

But the fact is I did eventually take action.

How ?

Well 7 months ago I got myself a mentor !

A guy that is well known online and REALLY knows how to make cash on the internet.... That man is now a good friend of mine... That man is Alex Jeffreys !

Having a mentor was the thing I soon came to realize that I needed. Having someone that knew how to make money online teaching me changed everything .... and I do mean **EVERYTHING**.

Having someone to hold myself accountable to made me work hard, in fact it made me want the success even more knowing what was possible if you wanted it badly enough.

In fact .. **Blow It ! ....**

**“Having a mentor teach me how to start an online business has and will continue to change my life forever !!!”**

There Ive said it, yes it sounds like a naff internet quote to throw at you but its

the truth and nothing but the truth.

Oh and heres the other thing.... Over the last few months I have now made close to \$10,000 online.... All thanks to the teaching I had and **the methods I now use.**

The underlining factor is, I escaped the deadly Newbie Path .... And the reason -

### **The coaching I received from my mentor !**

Of course not every single person will need one to become successful, they will get there too no doubt. It may just take them a little longer and cost a lot more cash.

The truth is Anyone can do this, all it takes is knowing what to do and how to do it. Just listen to someone that YOU know is already making it work and you wont go far wrong. Just steer well clear from the Deadly Path I have warned you about or you will be Doomed !!

More than anything I wanted to give you this information to try and swing the online game in your favor. While you are playing ball in their court you will never get to where we know you can be !

I hope this report has allowed me to make you see the path they are trying to make you take.... More importantly I hope it stops you from having it forced upon your life.

Be alert.... They're always watching to get you !!

Speak soon

Dean
